

**Resume of  
Dr. M. Shahe Alam**

1. Name : **Dr. M. SHAHE ALAM**
2. Father's Name : Late Md. Jalal Ahmed Bagha.
3. Present Address : D-137/1, Nazrul Sharani,  
Middle Chayabithi, Gazipur City,  
Gazipur-1700
- Cell: 88-01712-025400  
Email: [msalam\\_07@yahoo.com](mailto:msalam_07@yahoo.com)
4. Date of birth : 27th Sept. 1954.

I obtained M.S. in Agricultural Economics and PhD in Economics and worked at the Social Sciences Division of the Bangladesh Rice Research Institute for thirty years holding different positions including the Chief Economist and Divisional Head conducting research in various branches of economics and rural sociology. My responsibilities included: i) planning and designing the broader socio-economic research activities of the Institute, ii) supervision and execution of the planned programs under socioeconomics & policy research areas; iii) develop and recommend policy suggestions for the overall development of the rice sector of the Bangladesh economy, and iv) prepare and present the findings of the researches conducted in the department to the national level scientists and policy makers. Further, I worked as a research advisor at the Research and Evaluation Division of BRAC, an International NGO for one year where I performed about the same nature of work. Then I was engaged at FAO of the United Nations as the National Economic Advisor under NFPCSP where I worked for about three years where I worked mainly on monitoring & evaluation of the set research and policy development activities under monitoring and evaluation wing of the Ministry of Food.

) My past research and development works focused on, among others, research management, coordination, monitoring & evaluation, policy development etc. b) I have strong theoretical background in economics and econometrics, and I have successfully applied this knowledge in my past works.

c) I have adequate proficiency in using the common software packages for database management and advanced econometric and statistical analysis. I have experiences in managing large data set using computer packages like MS Excel, MS word, SPSS and MSPP.
