

## CURRICULUM VITAE

<b>PERMANENT ADDRESS:</b> <b>Dr. Md.Mozammel Haque</b> Village: Babupur, P.O.: Natuda, Upozilla:Mujibnagar Zilla: Meherpur, Bangladesh	<b>PRESENT ADDRESS:</b> Senior Scientific Officer Soil Science Division Bangladesh Rice Research Institute Gazipur-1701, Bangladesh Email: mhaquesoil@yahoo.com	
--	--	---

### EDUCATIONAL QUALIFICATION:

Certificate Degree	Field of Specialization	Name of Institution Attended	Duration of course	Class
Ph.D.	Greenhouse gas emission, Carbon sequestration, Rice productivity	Gyeongsang National University, Jinju, South Korea	Awarded (September 2010 – August 2014)	--
M.S.	Soil Science	Bangladesh Agricultural University, Bangladesh	January 2000 - June 2001	First class
B.Sc.Ag	Agriculture	Bangladesh Agricultural University, Bangladesh	January 1993 – December 1999	Second class

### RESEARCH EXPERIENCE:

#### 1. Ph. D. Fellow: September 2010 – August 2014

**Work:** I have experience in greenhouse gas emission ( $\text{CH}_4$ ,  $\text{CO}_2$  and  $\text{N}_2\text{O}$  emission) determined from rice paddy field under aerobic and anaerobic condition. I have developed management practices for reduced greenhouse gas emission as well as mitigation global warming potential. I have work on carbon sequestration using  $\text{CH}_4$  and  $\text{CO}_2$  emission analysis technique. I have also work dissolve organic carbon, hot water extractable carbon, carbohydrate, microbial biomass carbon, dissolve organic nitrogen, Exc. K, Available P, S, Zn and others element analysis.

2. Now I have used cool farmtool beta-3 tools for determination of greenhouse gas emission under major cropping pattern in Bangladesh. I have also work on soil physics like soil carbon aggregate, bulk density and other properties.

3. Now also I have experience in greenhouse gas emission and emission factor ( $\text{CH}_4$ ,  $\text{CO}_2$  and  $\text{N}_2\text{O}$  emission) determined from wheat, maize, potato, jute and mustard crops in rice soil under different condition. I have developed management practices for reduced greenhouse gas emission as well as mitigation global warming potential from major crops in Bangladesh.

#### 4. M.S. research project: Jun 2000 - June 2001

**Work:** P, K and Ca sorption and physio-chemical properties determine at variable pH and texture

from rice soils.

## PROFICIENCY IN ANALYTICAL TECHNIQUES / COMPUTERS:

### Technical Skills/Instrumentation handling:

1. Enzyme preparation for biochemical assays using homogenization and ultrasonication techniques.
2. Enzyme purification by ammonium sulfate precipitation, ion exchange chromatography and good hand with enzyme assay development and inhibition study of enzyme.
3. Experience in handling of Colorimeter, Microwave oven, Ultrasonication, Micro centrifuge, Laminar air flow, Autoclave, UV-Vis spectrophotometer, Fourier Transform Infrared Spectroscopy, High Performance Thin Layer Chromatography, High Performance Liquid Chromatography, Gas chromatography.
4. Wastewater analysis by using the following methods: biological oxygen demand (BOD), chemical oxygen demand (COD) and total organic carbon (TOC).

**Computer literacy:** MS office, Data analysis using Graph Pad, ACD chemsketch software, Sigma plot.

### TITLE OF Ph.D. THESIS: Ph.D. completion date - August, 2014

**“Effective Cover Crop and Water Management to Decrease Methane Emission and Sustain Soil Organic Carbon Stock in Rice Paddy”.**

### Research publications: International journal (47)

Total Citations: 496      h-index:12      i10-index:13

#### MANUSCRIPT UNDER REVISION:

1. Reduction in tillage operations for minimizing greenhouse gas emission and global warming potential under rice-mustard-rice cropping system (Agriculture, Ecosystems and Environment)
2. Coastal and marine pollution in Bangladesh: pathways, hotspots and adaptation strategies (European Journal of Environment and Earth Sciences)
3. Quadruple cropping patterns in Bangladesh: Scope and limitations (Annals Agricultural Sciences)

#### PRESENTATIONS AT ACADEMIC CONFERENCES: (5)

1. **Haque MM, Kim SY, Kim PJ**, Considering Minimum Recycling Ratio of Cover Crop Biomass to Maintain Soil Carbon Stock in Rice Paddy .Soil organic matter international conference, Nanjing, China. May 2012
2. **Haque MM, Kim SY, Kim PJ**, Effect of Intermittent drainage on suppressing CH<sub>4</sub> emission and Global warming potential under cover crop biomass amendment during rice cultivation conference on soil science organized by Korean society of soil science and fertilizer, Suwon, South Korea. July 2014.
3. **Waghmode TR, Haque MM, Kim SY, Kim GW, Young H, Kim PJ**, A combined effect of ethylenediaminetetraacetic acid and 2-bromoethanesulfonate on methane production in soil, conference on soil science organized by Korean society of soil science and fertilizer, Suwon, South Korea. Dec. 31-Nov. 1<sup>st</sup>, 2013
4. **Jatish C. Biswas, Haque MM, Maniruzzaman M, Akhter S, Kabir W**, Methane Emission and Carbon Budget during Wet Season Rice Cultivation International conference on climate knowledge, Gobeshona5, IUB, Dhaka, 8-11 January, 2018

**5. Md Mozammel Haque MM, Akhter S, Biswas JC, Maniruzaman M, Kabir MS**, Influence of nitrogen sources on nitrous oxide emission during maize, wheat and potato cultivation in Bangladesh. International conference on climate knowledge, Gobeshona5, IUB, Dhaka, 8-11 January, 2019

### POSTER PRESENTATION

1. **Md. Mozammel Haque, Prabhat Pramanik , Sang Yoon Kim, and Pil Joo Kim** Optimum Application Level of Winter Cover Crop Biomass as Green Manure under Considering Methane Emission and Rice Productivity in Paddy Soil
2. **Md. Mozammel Haque, Sang Yoon Kim, Tatoba R. weghmode, Pil Joo Kim**, Individual contributions from the soil and rice plant on CH<sub>4</sub> emissions during rice cultivation in green manure-amended paddy soil Korean society of soil science and fertilizer conference, May, 2013.
3. **Md. Mozammel Haque, Sang Yoon Kim, Pil Joo Kim**, Considering Minimum Recycling Ratio of Cover Crop Biomass to Maintain Soil Carbon Stock in Rice Paddy
4. **Md. Mozammel Haque, Pil Joo Kim**, Suppressing methane emission and global warming potential from rice field through intermittent drainage and green biomass amendment
5. **Md. Mozammel Haque<sup>1</sup>, Jatish Chandra Biswas and Pil Joo Kim**, Pattern of greenhouse gas emission from cultivated and fallow land in a temperate paddy soil

### OTHER INFORMATION / EXTRA CURRICULAR ACTIVITIES:

1. Award of Best presenter on research presentation Gyeongsang National University, Korea, September, 2012.
2. Best presenter on Poster presentation, Korean society of soil science and fertilizer conference, May, 2013.
3. Young pioneer Researcher Award Dean of the Graduate school, Gyeongsang National University, 29<sup>th</sup> May, 2013.
4. Best presenter on research presentation Gyeongsang National University, Korea, October, 2013.
5. Excellent Presentation Award, Director of the Brain Korea 21 Plus program, Gyeongsang National University, Korea, November, 2013.
6. Young scientist Award Dean of the Graduate school, Gyeongsang National University, 28<sup>th</sup> May, 2014
7. PAWEES Paper Award, 2018

### PERSONAL DETAILS:

<b>Name</b>	Dr. Md.Mozammel Haque
<b>Father Name</b>	Late Md. Mohiuddin Molla
<b>Date of Birth</b>	01.12.1973
<b>Nationality</b>	Bangladeshi
